FEDERAL MILK ORDER MARKET STATISTICS

Highlights

JULY 1967

<u>Producer Deliveries</u>. A total of 123,128 producers delivered 4.0 billion pounds of milk to regulated handlers in 66 comparable markets during July 1967. This is 1.9 percent above producer deliveries in July 1966. Average daily delivery per producer increased from 955 pounds in July 1966 to 1,037 pounds in July of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown on table 3.

<u>Producer Deliveries Used in Class I.</u> The volume of producer deliveries used in Class I in 66 markets decreased 5.2 percent from last year, to a total of 2.4 billion pounds for the month of July 1967. The average utilization percentage for July was 59 percent, down from 64 percent last year. Twelve markets showed an increase in the utilization percentage, 3 showed no change, and the remaining fifty-one markets showed a decrease (See table 4).

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, decreased 5.7 percent in the 66 markets for the month of July.

Minimum Prices. The weighted average Class I price paid by handlers in the 66 markets for 3.5 percent milk was \$5.97 per hundredweight, 30 cents higher than the \$5.67 per hundredweight price in July 1966. Minimum Class I prices for July were higher in 64 of the 66 markets.

Producers in the 66 markets received a weighted average blend price of \$5.12 per hundredweight for 3.5 percent milk. This is 7 cents higher than the July 1966 blend price of \$5.05. Producers received higher blend prices in 42 markets, the same price in one market, and a lower price in the remaining 23 markets. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 1.

Fluid Milk Sales. Total in-area fluid milk sales for July 1967 in 67 marketing areas are estimated to be about 1.9 billion pounds, 2.1 percent below such sales in July of last year. Complete June in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported on table 6.

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-July period for the 66 markets was \$5.91, 52 cents higher than the \$5.39 price in 1966. The 1967 weighted average blend price was \$5.08, 36 cents higher than the blend price of \$4.72 reported for this period in 1966 (See table 2).

<u>Producer Deliveries and Deliveries Used in Class I.</u> Milk deliveries and deliveries used in Class I are reported for individual markets on table 5. In the first seven months of this year, compared to the same period in 1966, producer deliveries for the 66 markets were up 1.0 percent, and deliveries used in Class I were down 3.0 percent. Data for the 66 markets and for all markets are summarized below:

Producer Milk Delive	eries and Deliveries	Used in Class	I, January-July

^{1/} Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders.

 $[\]frac{2}{1}$ Computed from data contained in "Milk Production, Disposition, and Income," 1965-66. $\frac{3}{4}$ Revised. $\frac{4}{1}$ Less than 500 thousand pounds. $\frac{5}{1}$ Less than one-tenth of one percent.

RECEIPTS AT FEDERALLY REGULATED PLANTS IN 1966 WERE 48.3 PERCENT OF THE UNITED STATES TOTAL

In 1966, approximately 146 thousand producers delivered 53.1 billion pounds of milk to handlers regulated under 71 1/ Federal milk marketing orders. This represented 48.3 percent of all milk delivered to all plants and dealers in the United States.

Deliveries	to	Federal	order	plants	21

	:		:	Percentage of				
Year	:	Total	:	milk delivered				
	:	:		to all U_i S. plants $\frac{3}{2}$				
Million lb.				Percent				
1956		31,380		32.9				
1957		33,455		34.0				
1958		36,356		36. 5				
1959		40,149		39.8				
1960		44,812		43.1				
1961		48,803		45.0				
1962		51,648		46.7				
1963		52,860		47.5				
1964		54,447		47.7				
1965		54,444		48.3				
1966		53,103		48.3				

These data are one measure of the increasing significance of the Federal milk order program relative to the total dairy industry and illustrate the growth of the order program.

For the 45 States in which milk was sold to Federally regulated plants, the percentage of total whole milk sales to plants and dealers varied from a low of less than one-tenth of one percent in Montana to a high of 100 percent in the States of Connecticut and New Jersey. In six other States - Massachusetts, Rhode Island, Maryland, Colorado, New Mexico, and Arizona - more than 90 percent of all producer deliveries were made to Federally regulated plants. Producers in 21 States, including those already mentioned, plus Vermont, New York, Pennsylvania, Delaware, West Virginia, Ohio, Indiana, Michigan, Kansas, Mississippi, Oklahoma, Texas, and Washington, sold over two-thirds of their total marketings to plants and dealers, to handlers regulated under Federal milk orders.

No milk was sold to Federally regulated plants by producers in the five States of South Carolina, North Dakota, Oregon, Alaska, and Hawaii. A very small proportion - less than five percent - was delivered to Federal order plants by producers in each of the States of North Carolina, Georgia, Alabama, Montana, Idaho, Nevada, and California.

By region, Federal order marketings were most important in the New England, Middle Atlantic, and West South Central States, in which they represented 78.7 percent, 79.9 percent, and 75.4 percent, respectively, of total sales of whole milk. Except for Alaska and Rawali, Federal order marketings were least important on the Pacific Coast where they represented only 13.9 percent of all marketings to plants and dealers.

^{1/} Number of Federal order markets, December 31, 1966.

^{2/} Statistical Bulletin No. 248, "Federal Milk Order Market Statistics," and Supplements for 1957-58, 1959, 1960, 1961 and SB Nos. 335, 345, 361, 374, and 403 for 1962, 1963, 1964, 1965, and 1966. 3/ Computed from data contained in "Milk Production, Disposition, and Income," 1965-66.

MAJOR ORDER ACTIONS, JULY 1967

Amendments:

- Red River Valley July 1 (32 FR 9823, 7/6/67). On the basis of written application by a plant operator, this action authorizes the Secretary to exclude Class I disposition (under limited term contracts) to governmental bases and institutions in determination of the order under which a distributing plant shall be regulated.
- Texas Panhandle July 1 (32 FR 9823, 7/6/67). In order to qualify for pooling a distributing plant must dispose of at least 50 percent of its Grade A receipts on routes and not less than 15 percent or an average of not less than 10,000 pounds per day, whichever is less, must be disposed of on routes in the marketing area. On the basis of written application by a plant operator, this amendment authorizes the Secretary to exclude Class I disposition (under limited term contracts) to governmental bases and institutions in determination of the order under which a distributing plant shall be regulated.

Suspensions:

- <u>Central Illinois</u> July 1 (32 FR 11207, 8/2/67). Suspension removes the diversion limitations for the month of July 1967.
- Rio Grande Valley July 1 (32 FR 11135, 8/1/67). This suspension action removes for the months of July and August 1967 the requirement that a distributing plant must dispose of 50 percent of the receipts of Grade A milk as Class I milk each month in order to be a pool plant.
- San Antonio July 1 (32 FR 10783, 7/22/67). Action suspends for the months of July and August 1967 the limitation on the number of days' production during a month that must be received at a pool plant as a condition for the diversion of producer milk by a cooperative association.
- Southeastern Florida and Tampa Bay July 1 (32 FR 9301 and 9300, 6/30/67).

 This suspension action provides for retaining for July 1967 the present Class I pricing provisions which were due to expire June 30, pending amendatory action.
- Southern Illinois July 1 (32 FR 9612, 7/4/67). Suspension action removes the diversion limitations for the month of July 1967.
- Tampa Bay July 19 (32 FR 10554, 7/19/67). This action suspends for the months of July and August 1967 the provisions that limit the quantity of producer milk that may be diverted to nonpool plants by cooperatives and proprietary handlers.
- Wichita July 1 (32 FR 9510, 7/1/67). Action suspends the effect of the supply-demand adjustor to the Class I price for the month of July 1967.
